Imagine two people working at 99x.

The engineer

Solves hard problems.

Sales

Opens new doors.

Same company. Different worlds.

IMAGINE THIS…

“What if we lost our next client because we couldn’t find what we already knew?”

02 — THE PROBLEM

Our knowledge is everywhere.
But not always where we need it.

PEOPLE

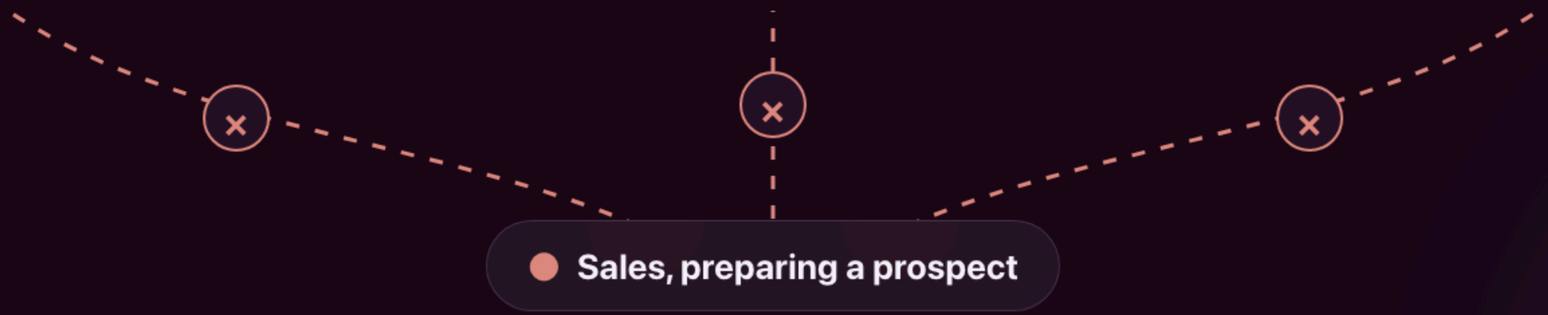

- Engineer · Payments
- Tech lead · Retail
- QA · Mobile

PROJECTS

- Checkout revamp
- Data migration
- Support triage

TOOLS

- Repos
- Chat
- Wikis
- Tickets
- Slides

We don’t have a lack of expertise.
We have a challenge making it accessible.

GENERIC VS. EVIDENCE

What makes a prospect say yes?

Illustrative example

SC **Software company** Cold email

Quick question

Hi! We're a leading software company with world-class engineers and 20 years of experience. Do you have 15 minutes next week?

99 **99x Sales** To: Head of E-commerce

How we made checkout 4× faster under peak traffic

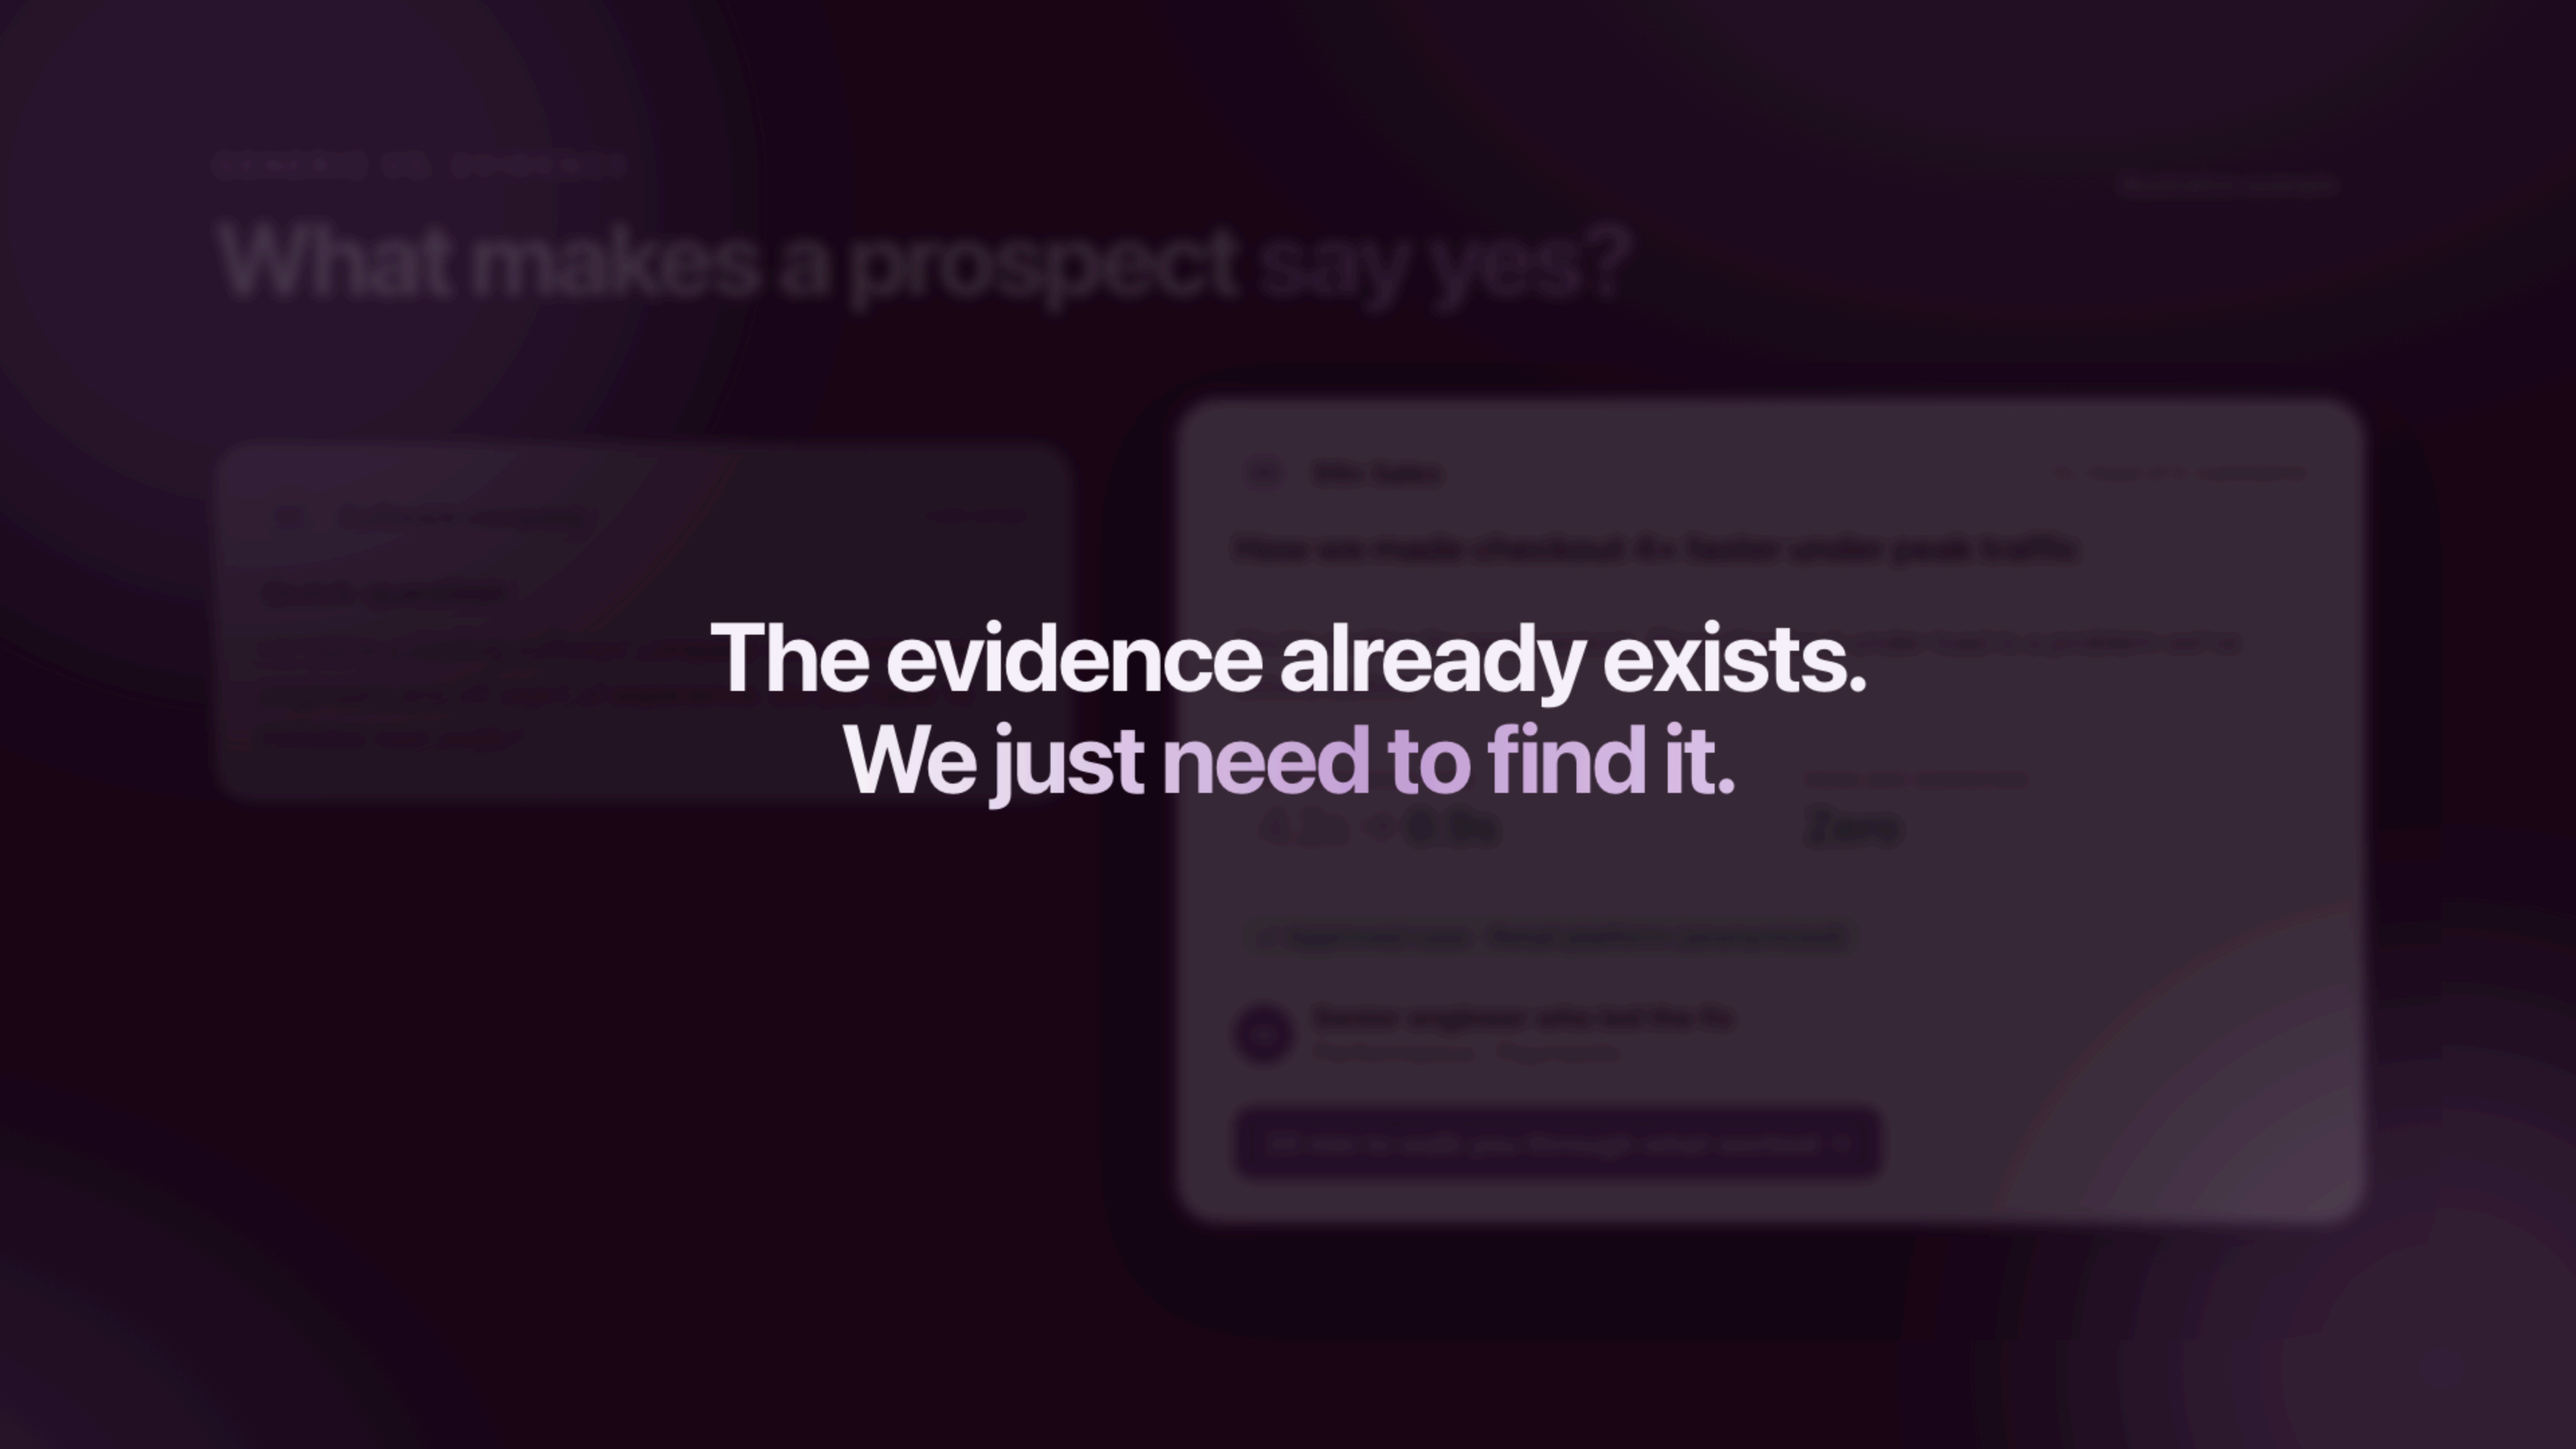

You're scaling for peak season. Slow checkout under load is a problem we've solved before.

P95 CHECKOUT TIME	PEAK-DAY DOWNTIME
4.2s → **0.9s**	**Zero**

✓ Approved case · Retail platform (anonymized)

SE **Senior engineer who led the fix**
Performance · Payments

20 min to walk you through what worked →

The evidence already exists.
We just need to find it.

Ask 99x

Share what you know. Just talk.

04 — LIVE DEMO

See it in action.

05 — THE BIGGER OPPORTUNITY

Here's why this matters.

ENGINEERS

Less duplicated effort

Easier access to lessons learned.

TECHNICAL LEADERS

Better visibility

Into the knowledge that already exists across teams.

AND FOR SALES?

Relevant, approved experience

Ready when approaching new prospects.

We’re not claiming an AI agent will ~~magically close deals.~~

We’re creating a way for 99x to show the expertise it already has.

With more relevance and less effort.

One person’s experience becomes an advantage for the entire company.

06 — MEASURING SUCCESS

How do we measure success?

NOT BY ~~How many documents we store~~

CAPTURED

How easily

knowledge is captured from everyday work.

→

DISCOVERED

How often

it's found by the people who need it.

→

REUSED

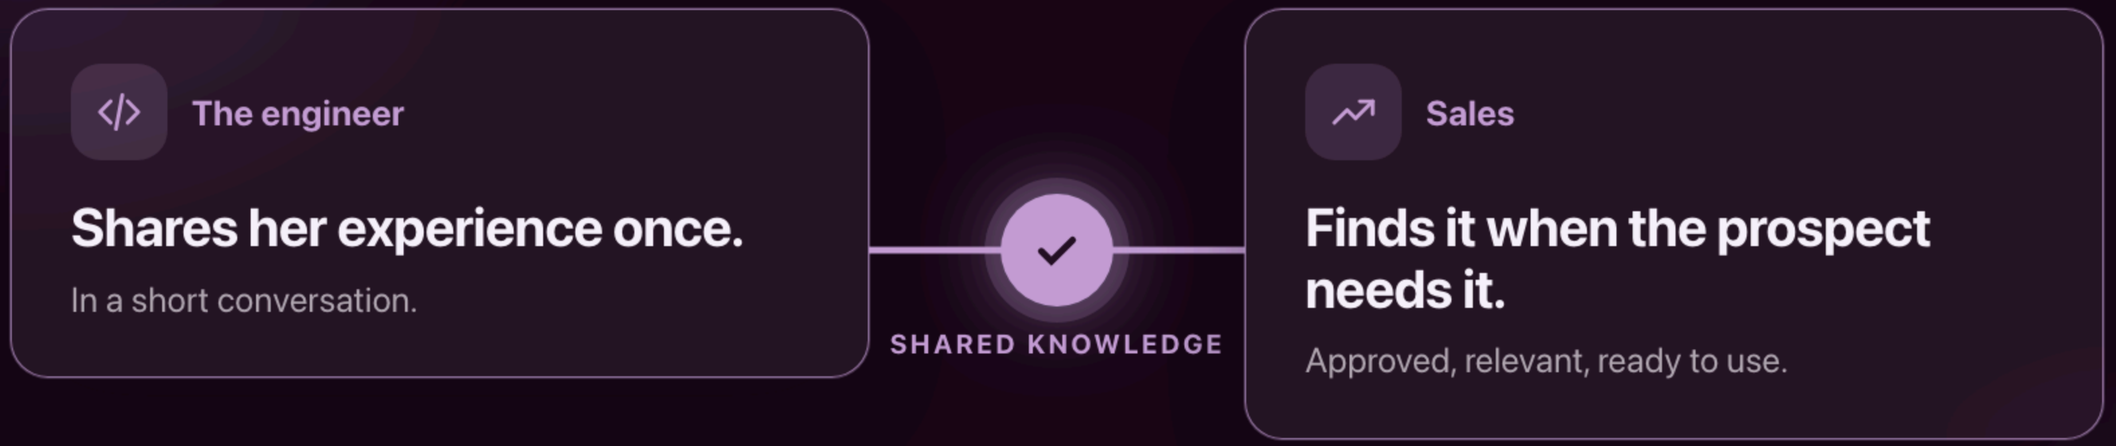

How much value

we create by reusing it.

OUR VISION IS SIMPLE

Imagine a 99x where...

- Every project makes the next one easier.
- Lessons don’t disappear when teams change.
- Sales discovers the right expertise at the right moment.
- Sharing knowledge is a natural part of our work.

The engineer
Shares her experience once.
In a short conversation.
SHARED KNOWLEDGE
Sales
Finds it when the prospect needs it.
Approved, relevant, ready to use.

Our greatest asset isn't just the software we deliver.

It's everything our people learn while delivering it.

The next big opportunity for 99x might already be inside our company.

All we have to do is ask.
